Quilting - Fans and Dresden Plates

Fan patterns, sometimes called Grandmother's Fan, have been popular since the late 1800's and are still popular today. Why? Partly because the pattern is so versatile. Size of the block, number of blades in the fan, points or curved blades, setting of the blocks all may be variable. In our updated version, we will be able to make these designs in a variety of settings using two different sizes for the blocks. One will be good for a smaller quilt or project; the other will work well for a full sized quilt. Amount of fabric needed and quilting supplies will be discussed in the first class. There is no need to bring anything to the first class.

Water Exercise

These exercises will tone and firm your muscles, increase your flexibility and range of motion and stimulate your circulation. The resistance of the water produces effects similar to using weights in land exercises, while its buoyancy makes movements possible where one might otherwise be restricted. Non-swimmers are welcome as the exercises are done in the shallow end or holding on to the edge of the pool. Program includes 60 minutes of creative routines choreographed to music followed by a 30 minute open swim. If you require a pool lift or other special accommodation, please contact the Community Education Office (716) 874-8500.
